### PERSONAL PROFILE

I am an experienced Web Developer based in Toronto, constantly looking for opportunities to learn new technologies and expand my skill set

- In depth knowledge of modern web development best practices learned at HackerYou
- Over four years of experience in developing .NET applications on various platforms including SharePoint and nopCommerce
- Experience in working in multi-disciplined teams of designers, developers, consultants and project managers

### PROFESSIONAL EXPERIENCE

#### Freelance Software Developer

*October 2018-December 2018*

- Worked on a web application where I made AJAX calls to pull information from the front-end to store in the database

#### Software Developer (Contract)

*Randstad, Toronto, August 2018-September 2018*

- Created ASPX pages and converted existing HTML pages to ASPX
- Created stored procedures and classes for retrieving, updating, deleting and created custom functions within the system
- Integrated SAML authentication for Single Sign On

#### Software Developer

*Exedra, Kuwait, January 2014-April 2018*

- Converted cash-based manual rent payments to an end-to-end online rental payment system
- Developed the maintenance portal for tenants to request services
- Managed vendors for outsourced projects

### VOLUNTEER EXPERIENCE

#### Mentor

*HackerYou, 2018*

- Mentored students for Web Development Basics: Free Coding Workshop at HackerYou

#### Software Developer

*Kuwait Red Crescent Society, Kuwait, 2014*

- Collaborated in the development of KRCS Website which involved creating pages and uploading content about KRCS

### EDUCATION

#### HackerYou College of Technology, 2018

- Part-Time Web Development and JavaScript
- Full-Time Web Development Immersive Bootcamp

#### Mumbai University, 2012

*B.Eng. in Information Technology*
